CONTENTS

Tectonophysics Volume 205

Special Issue: Andean Geodynamics (edited by R.A. Oliver, N. Vatin-Pérignon and G. Laubacher)

Preface vii

On the geometry of the Nazca Plate subducted under Central Chile (32–34.5°S) as inferred from microseismic data
A. Fuenzalida (Strasbourg, France), M. Pardo (Santiago, Chile), A. Cisternas, L. Dorbath and C. Dorbath (Strasbourg, France), D. Comte and E. Kausel (Santiago, Chile) 1

Crustal seismicity and subduction morphology around Antofagasta, Chile: preliminary results from a microearthquake survey
D. Comte and M. Pardo (Santiago, Chile), L. Dorbath, C. Dorbath, H. Haessler, L. Rivera and A. Cisternas (Strasbourg, France), and L. Ponce (México D.F., México) 13

Subduction geometry in central Peru from a microseismicity survey: first results
R. Lindo (Lima, Peru), C. Dorbath (Paris, France), A Cisternas (Strasbourg, France), L. Dorbath (Paris, France), L. Ocola and M. Morales (Lima, Peru) 23

Gravity, isostasy and Andean crustal shortening between latitudes 30°S and 35°S
A. Introcaso, M.C. Pacino and H. Fraga (Rosario, Argentina) 31

Paleomagnetic evidence for rotation in the Precordillera of northern Chile: structural constraints and implications for the evolution of the Andean forearc
A. Hartley (Cardiff, U.K), E.J. Jolley and P. Turner (Birmingham, U.K) 49

Late Cainozoic rotation of the Peruvian Western Cordillera and the uplift of the Central Andes
O. Macedo-Sanchez, J. Surmont, C. Kissel, P. Mitouard and C. Laj (Gif-sur-Yvette, France) 65

Active tectonics of the Andes
J.F. Dewey and S.H. Lamb (Oxford, UK) 79

Plio-Quaternary vertical motions and the subduction of the Nazca Ridge, central coast of Peru
J. Macharé (Lima, Peru) and L. Ortlieb (Lima, Peru) 97

Latest Pleistocene–Holocene tectonics of the Ecuadorian Andes
A. Tibaldi and L. Ferrari (Milan, Italy) 109

Magmatic arc tectonics in the Central Andes between 21° and 25°S
E. Scheuber and K.-J. Reutter (Berlin, Germany) 127

Structural constraints on palaeomagnetic rotations south of the Arica Bend, northern Chile: implications for the Bolivian Orocline
P.M. Scanlan and P. Turner (Birmingham, UK) 141

Evidence for major shortening on the eastern edge of the Bolivian Altiplano: the Calazaya nappe
P. Baby, T. Sempere and J. Oller (Santa Cruz, Bolivia), and G. Hérail (La Paz, Bolivia) 155

Granitoid emplacement and deformation along a major crustal lineament: the Cordillera Blanca, Peru
N. Petford and M.P. Atherton (Liverpool, UK) 171

The geology and Mesozoic collisional history of the Cordillera Real, Ecuador
J.A. Aspden and M. Litherland (Nottingham, UK) 187

Allochthonous terranes in northwestern Ecuador
F. Van Thournout (Quito, Ecuador), J. Hertogen (Leuven, Belgium) and L. Quevedo (Quito, Ecuador) 205

Metamorphic pattern of the Cretaceous Celica Formation, SW Ecuador, and its geodynamic implications
L. Aguirre (Marseille, France) 223

Bimodal magmatism in northeast Palmer Land, Antarctic Peninsula: geochemical evidence for a Jurassic ensialic back-arc basin
H.E. Wever and B.C. Storey (Cambridge, UK) 239

Southern Patagonian plateau basalts and deformation: backarc testimony of ridge collisions
V.A. Ramos (Buenos Aires, Argentina) and S.M. Kay (Ithaca, N.Y., USA) 261

Magmatism and tectonics in continental Chiloé, Chile (42°–42°30′S)
R.J. Pankhurst (Nottingham, UK) F. Hervé, L. Rojas and J. Cembrano (Santiago, Chile) 283

Fission-track and K-Ar ages of "macusanite" obsidian glasses, (SE Peru): Geodynamic implications
G. Poupeau and N. Sabil (Grenoble, France), I.M. Villa and G. Bigazzi (Pisa, Italia), N. Vatin-Perignon (Grenoble, France), P. Flores (Lima, Peru), P. Pereyra (Lima, Peru), G. Salas (Arequipa, Peru) and G. Arroyo (Lima, Peru) 295

Volcano-stratigraphy and $^{40}Ar/^{39}Ar$ geochronology of the Macusani ignimbrite field: monitor of the Miocene geodynamic evolution of the Andes of southeast Peru
A. Cheilletz (Vandoeuvre lès Nancy, France), A.H. Clark and E. Farrar (Kingston, Ont., Canada), G.A. Pauca (Lima, Peru), M. Pichavant (Orléans, France) and H.A. Sandeman (Kingston, Ont., Canada) 307
Geodynamic interpretations of plate subduction in the northernmost part of the Central Volcanic Zone from the geochemical evolution and quantification of the crustal contamination of the Nevado Solimana volcano, southern Peru
N. Vatin-Pérignon, R.A. Oliver, P. Goemans and F. Keller (Grenoble, France), L. Briqueu (Montpellier, France) and G. Salas A. (Arequipa, Perú) 329

Regular section

Research Papers
Structural evolution of intermediate-crustal rocks in a strike-slip and extensional setting (Variscan Odenwald, SW Germany): differential upward transport of metamorphic complexes and changing deformation mechanisms
A. Krohe (Bochum, Germany) 357
Retrograde evolution in the Central Vosges mountains (northeastern France): implications for the metamorphic history of high-grade rocks during the Variscan orogeny
L. Latouche, J. Fabriès and M. Guiraud (Paris, France) 387
Subsidence of the Gulf of Papua in the Cenozoic
Z. Wang and C.A. Stein (Chicago, Ill., U.S.A.) 409
A model for crustal deformations associated with the 1914 great eruption of Sakurajima volcano, Kagoshima, Japan
M. Hashimoto and T. Tada (Ibaraki, Japan) 427
Geophysical evidence for a major Precambrian schist–granite boundary in Southern Cameroon
E. Manguelle-Dicoum, A.S. Bokosah and T.E. Kwende-Mbanwi (Yaounde, Cameroon) 437
The Cretaceous-Tertiary sea floor off Dronning Maud Land, Antarctica
D. Gopala Rao, A.K. Chaubey and T. Ramprasad (Goa, India) 447

Erratum 453
